

1. Do you have a sample contract and/or terms you all use that you could share for our awareness?

A-NPDC uses the standard contracts prescribed by the Commonwealth of Virginia's electronic procurement system - <https://eva.virginia.gov/>

2. It looks like the scope of services plans to include analysis, will all analysis be completed in this contract or do you all still intend to use VDOT to support on a portion of the analysis?

We anticipate VDOT will provide some preliminary data analysis. The extent and nature of this initial analysis is uncertain at this juncture.
